

# Installation manual

## SmartGas 2

Honda Odyssey (2011 - ...)

2111140000

Release date: 26 January 2016

Latest update: 26 January 2016

### General information

Always use universal manual 2990040000 for making all of the non car specific connections.

Make sure the negative poles of all batteries in the car are disconnected before making any electrical connections. Follow the car manufacturer instructions to prevent unwanted errors.

Ensure that your solder connections are solid and insulate them well.

If wire colours in the vehicle differ from the car specific manual please report it to the Producer or distributor.

### Accelerator pedal

See wiring diagram at the end of this manual.

### Ignition Signal (+15)

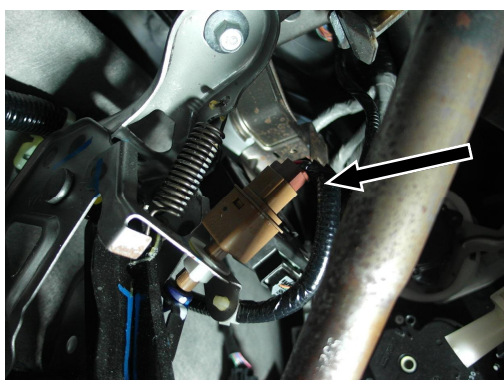

Protect the ignition wire by putting a 5 A fuse as close as possible near the source.

See the Wiring diagram in the universal manual 2990040000.

**Ignition signal can be found on pin 4 (green) of the 4-pin brown connector at the brake light switch.**

### Brake light signal

**Brake light signal can be found on pin 1 and 3 of the 4-pin brown connector at the brake light switch.**

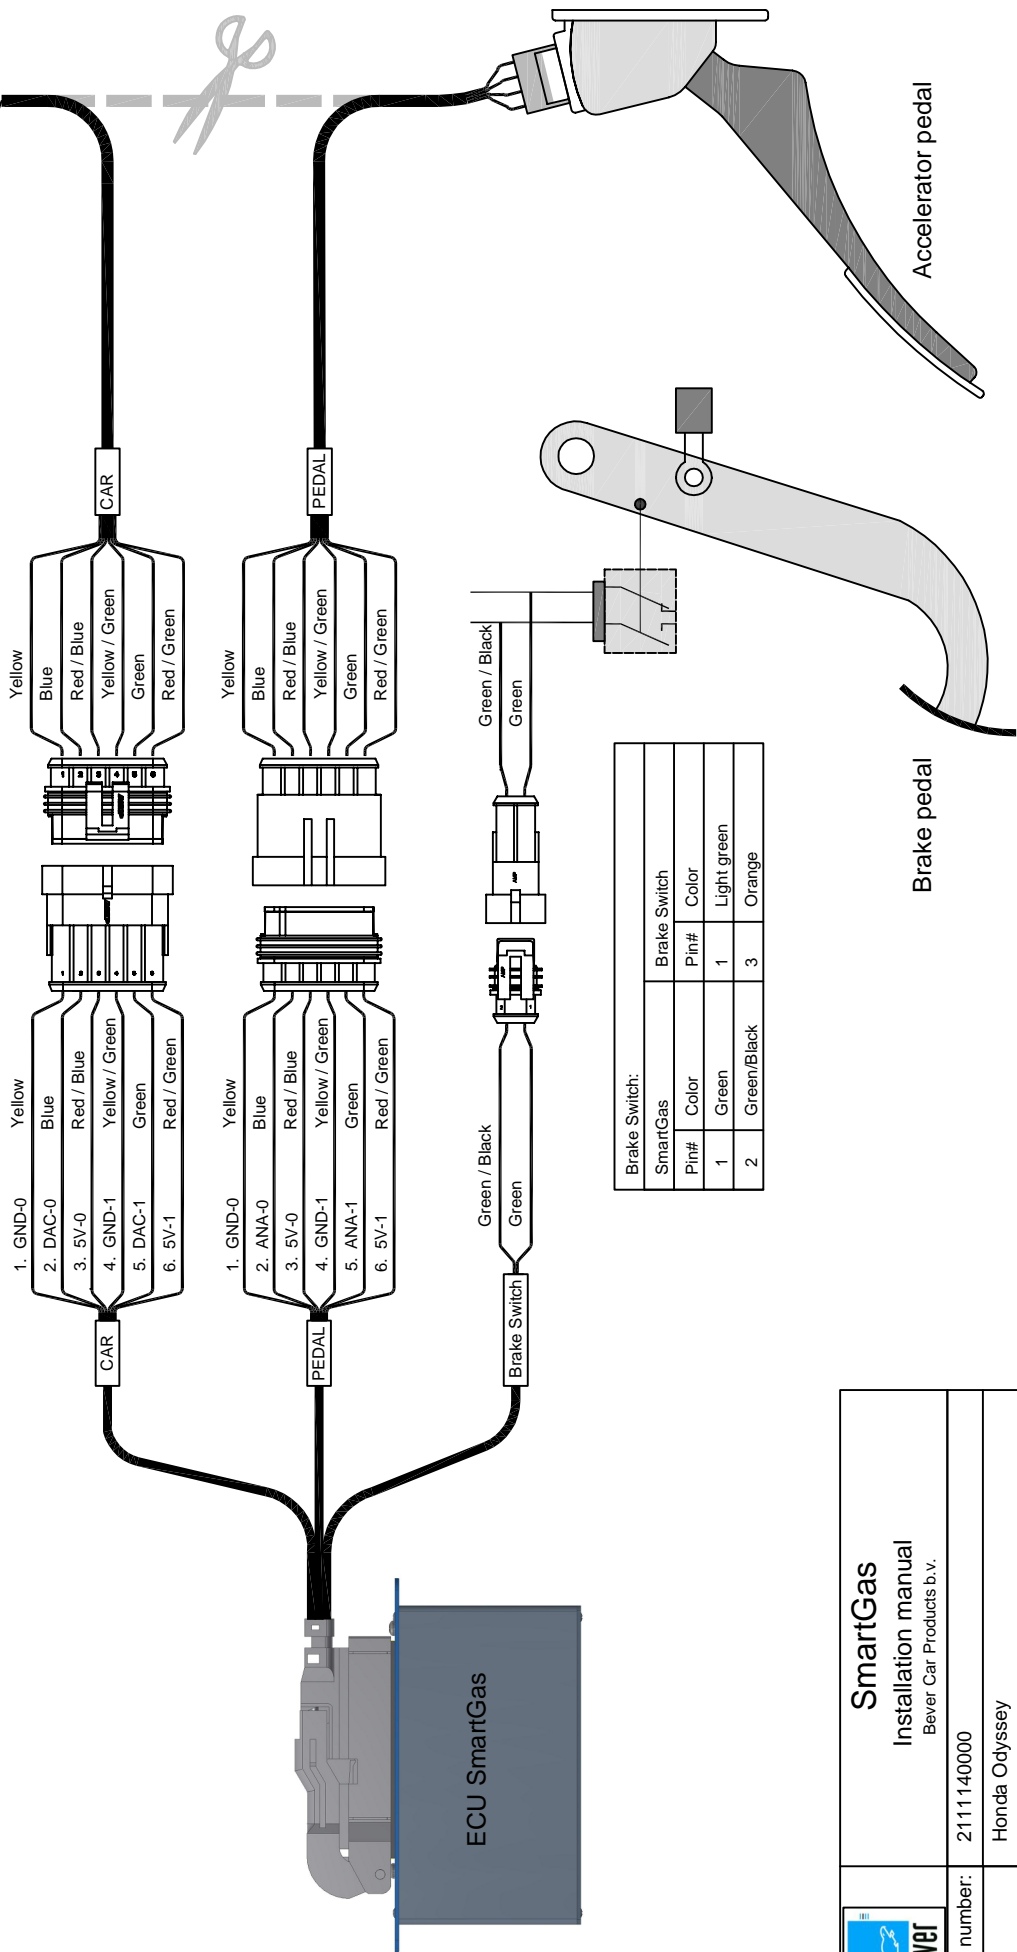

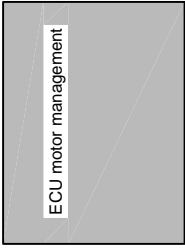

### Calibration

In the universal manual is explained how to calibrate the SmartGas.
